ORP PROBES ORP PROBES_ SRH-1-AU-S 6

Features:

- · Low maintenance sealed unit
- Gel filled reference cell
- BNC connection with boot plastic cover
- Cable length 6m
- Golden Electrode
- Pellon diaphragm accuracy

Field Application:

- General laboratory
- drinking water
- swimming pools with salt water
- water monitoring and control plan

Features:

- Range: ±2000 mV, 0
- Temperature: 0..60 °C, 0
- Pressure: 6 Bar 0
- 0 Yellow plastic Body
- Measure electrod gold body 0
- 0
- Reference measure electrod Ag/Ag Cl Single junction with KCL Gel and Pellon diaphram. 0
- YELLOW cup with 6 meter cable size 3mm, BNC 0 plug incluted with yellow Boot cup.
- Batch production with 4 number to indicate Week and 0 Year production.
- Single Package with neutral carton box. 0
- Neutral Label. 0

TECHNICAL CHARACTERISTICS

Range:	± 2000 mV
Temp. Range:	0 - 60° C
Pressure Range:	0- 6 bar
Body material:	Ероху
Electrode material:	Gold
Diaphragm type:	Pellon
Mechanical Mounting:	Standard Ø12
Electrical Connection:	6 m cable + BNC
Reference:	GEL
Offset	±12 mV
Storage temperature	+2 ÷50 °C (do not freeze)
